**GASOLINE AND OIL**

**Telephone Information**

IN ORDER to assist us in giving prompt and efficient service our customers are requested to comply with the following regulations and suggestions:

- ¶ Obtain telephone numbers from the latest Telephone Directory.
- ¶ Do not ask the operator for names unless they are not shown in your directory. (When an operator is required to look up a name and number the service both to you and to others is delayed.)
- ¶ If the name is not found in the Directory ask the operator and note the number in your Directory for future reference.
- ¶ When giving a number to the operator state each figure of the number desired and also the prefixed word if there is one. Example: 134—one, three, four. Green-56—Green, five six.
- ¶ Speak directly into the mouthpiece of your telephone with your lips close to it.
- ¶ Speak slowly and distinctly and in a moderate voice.
- ¶ After giving the number listen to the operator as she repeats it. If she does not repeat it correctly say, "No," and give the number again, more clearly if possible.
- ¶ On calls to party lines the BUSY report does not necessarily mean that the particular telephone called is busy but that some telephone on the line is in use.
- ¶ Answer calls promptly in order to avoid a report of "Does not answer" being given to the party calling.
- ¶ Do not remove the receiver from the hook until the bell has stopped ringing.
- ¶ When answering a call instead of saying "Hello" give your telephone number or name.
- ¶ To recall the operator during a connection move the receiver hook slowly up and down five or six times or until the operator answers. Do not move the hook rapidly.
- ¶ Do not hang up the receiver until you are ready for the operator to take down the connection.
- ¶ When you are not using the telephone see that the receiver is on the hook, large end down.
- ¶ Specific instances of unsatisfactory service or troubles from defective equipment should be promptly reported to the office of the company. Phone 10.
