Telephone Information

In order to assist us in giving prompt and efficient service our customers are requested to comply with the following regulations and suggestions:

Obtain telephone numbers from the latest Telephone Directory.

Do not ask the operator for names unless they are not shown in your directory. (When an operator is required to look up a name and number the service both to you and to others is delayed.)

If the name is not found in the directory ask the operator and note the number in the directory for future reference.

Speak directly into the mouthpiece of your telephone with your lips close to it.

If the line you are calling is busy you will hear an instrument buzzing at regular intervals. This signal is known as the "Busy Back." Hang up and call later.

On calls to party lines the "busy back" report does not necessarily mean that the particular telephone called is busy but that some telephone on that line is in use.

For the addition of new names or numbers or for recording numbers called most frequently, space is provided on page eight of the directory.

Please do not list names or numbers from an old directory without first verifying their accuracy.

General Information

NUMBER CHANGES

Changing telephone numbers is often unavoidable and we appreciate that it often results in some inconvenience to our customers. However, to meet the increasing demands for service it is sometimes necessary to make certain rearrangements in our equipment. Your co-operation in such adjustments is appreciated.

ORDERS FOR SERVICE

To arrange for the installation of new service please call at the Business Office where the proper application blanks will be provided for signature. If you wish telephone instruments moved from one location or address to another, or service discontinued, please notify the Business Office, preferably sufficiently in advance so that the work may be performed at the time you require it done.

INSTALLATION AND MOVING CHARGES

As all rates are service rates, a charge of \$2.00 will be made for the original wiring and installation of a telephone or the moving of a telephone from one location to another in the same premises. There will be no charge for the connection or installation of a telephone in a location wired for a phone, provided the number of such connections or transfer of services from one address to another does not exceed one per customer per calendar year. A charge of \$1.00 will be made for each additional connection or transfer.

SERVICE CALLS

It is our aim to give satisfaction at all times, but we realize that difficulties will sometimes occur despite our efforts to avoid them. Your co-operation in this regard is always highly appreciated.

To report telephones out of order, call Main Office 10
For numbers not listed in Directory, call "Chief Operator"

- 318—Tongass Avenue and Nadeau Street .
- 332—Young and Dunton Streets.

The fire alarm siren does not sound a code signal or give the location of a fire. It is a general alarm only. Anyone reporting a fire by phone is requested to give his name and phone number as well as the exact location of the fire. Speak slowly and distinctly. It saves time.

After the siren has blown persons other than firemen are asked not to call the operators for the location of the fire until at least three minutes have passed. This will give the operators time to answer firemen's calls and to clear the switchboard for regular traffic.

New Residents . . .

Always turn to the
CLASSIFIED
Telephone Directory

They know they will find the town's leading merchants under the proper classifications. They know that the classifications are easy to find.

and the

Old-Time Residents . . .

turn to the classified section because it is designed for quick and easy reference to any product they may want to buy.

ADVERTISING IN THE CLASSIFIED SECTION is a low cost, permanent type of advertising that yields results far over and above the initial price. **IF YOUR BUSINESS** is not listed, make arrangements now to place it in the next classified directory.

Symbols of Progress

There was a time when a modern bathroom was a symbol of progress; later an automobile came to be the accepted standard of success and progress.

Today, the complete electrification of the home, no matter how humble, is the recognized symbol of modernity.

Electricity's service is complete. Its use to the fullest advantage provides convenience, lightens labor, increases leisure, is economical.

How would your home be rated by today's standards?

Use Electricity More!

Market-places in type

Think of a great market-place where farmers, merchants, clothiers, caterers stand and solicit your trade. All who make the clothes you wear, the furniture and draperies for your house, the medicines that keep you well, eagerly seek the chance to tell you of their wares.

Such, in effect, is the newspaper. Here, in a great market-place, set in type, manufacturers whose names you know ask for your patronage. By printed word, they tell you why this brand of corn flakes is superior . . . why this maple corner-cupboard is worth more than is asked . . . why the desk, the motor car, the life insurance, the book will add to your joy of living.

Heed the advertisements well. They have a message that will save you money, conserve your time and patience, richly reward you and your family.
