## WHERE'S THE TIME?

Students began to realize that school was really back in session when the school work started pouring in. All the work seemed to creep up on them. So the investigation began.

- "4 major projects...all the last minute reacerch, HELP!" cries Chad Wallin.-

- "Not enough time to get it all done," concludes Scott Effenberg.-

- "I'm not going to make it!" screams Rachel Cannon.-

- "What now.. What is going on?" typical freshman Felicia Burton.-

As you can well see the sxhool year has brought a lot of new inverstigations upon everyone. Hope we all make it.

## PAST RECORDS

As we began our investigation of Ketchikan High School we familiarized ourselves with the background of our suspects. Who were they? What did they do? When did they have fun? Where did they have fun? How?

Kayhi students found themselves with 3 months of freedom: Summer Vacation. So what did they do over the summer? "I scooped icecream for a bunch of hungry tourists," Andrea Joseph said. "This summer I worked at 7-11 in California; I had the day shift - thank God!" Travis Stelter proclaimed. "I led tourists through Dolly's House - in character," Roxie Spromberg exclaimed.

Ok, so now we know that Kayhi students worked a lot during the summer of '91, but when did they find time to cure that annual disease we all know and love, Ketchikanitis? "This summer I visited my wonderful relatives for a month in various cities of California," Arvin Ner said. "I helped build a house for a poor family in the Appalachin Mountains," Jolene Gibson remeberd. "Ballet - that's all I did!" Amber Kile dictated.

And HOW did they have fun? Well, that's an easy one, together of course! (Preferably out of town).

# A TIME OF

## FLEX

This year was a time of experiment in a variety of areas. New roads, new parking, the first phase of a new school, and the most obvious affecting the students, the schedule change. Everyone had trouble knowing where to go, when to go, and when to leave. Even after a few months of school had been in session students were tumbling around the halls like confused freshman on their first day of school. People were often late for classes, but fortunately no one could be late for FLEX.

The new schedule allowed many new things to occur. FLEX became a time when students could get help with teachers or spend detention. Many S.B.A. meetings were held. One student professed, "No one will want to be in S.B.A. now that they can't get out of class," but S.B.A. was still crammed with representation. This new "period" became a time for not only work, but fun too. Pep assemblies were an hour and a half of fun filled action packed excitement. FLEX was a time of relaxation, fun, work, and the most fortunate students could go home early.

All and all FLEX proved to be an experiment which was successful in its trial year.

# ON THE PROWL

## Sneak'n Around?!

Almost every one does a certain amount of sneaking around in a typical school day, from the time you get up until it's time for you to hit the sack. It seems that some students and staff tend to sneak around more than others!

How far do you go? How far can you go? Are you one of those people who crawl out of bed ten minutes before school starts, running out the door with an apple in your mouth and your still pulling your shirt over your head? You've either missed your bus, or you hit 70 mph, on the way to town. Or do you get up a good two hours before you have to leave, have a nice breakfast and get ready arriving at school before the bell rings? Ten to one says that the majority of the students at this school fall into the first category. Time and time again sneaking into Mr. Wipfli's class 10 minutes late, praying he's so engrossed in a lecture that he won't notice that you're late again.

During the day you do a few things that more than likely go unnoticed, or so you think.

Finally schools out! Some people go to work, some to a practice or meeting of some kind, some people go home chow down and hit the sack. But your day of sneaking around is not over yet! For everyone there is the problem of home work, that you have been putting off until 9:00 PM. The dilemma isn't so much what to do, or how to do it, but if you are in the mood to do it. Some do and some don't. Eventually you crawl into bed knowing that it'll all start over tomorrow.

Bottom: right: Clear the runway we are coming in for a landing! exclaim Andrew Mullins and David Weberg.

# EXTRA'S

## WHAT WE DO...

Contrary to popular belief Kayhi students do have other things to attend to outside of school. These things consisting of: soccer, repelling, ballet...etc. and many more. Many of our students here at Kayhi enjoy and excel at these activities.

It is a commendable thing when a student can keep up with the great amount of homework and still find time to pursue other activities.

## WE DID IT!!

Every year the senior class puts on their senior carnival, and just like any other year the class of 1992 participated in it also. Hundreds of little kids could be seen running through the high school on the night of October 19, 1991, but little did they know how much effort and time had been taken so they could have fun, and the senior class could make money for their prom.

We never thought we could do it! More and more problems seemed to

pile up as the carnival date approached. Our class was extremely small for starters, so this created many problems. We didn't have a spook house, horse races, or a dunk tank, and when we finally received the tank it exploded. It seemed like every thing was going wrong, but the night before carnival our class of 1992 bonded together to work diligently to accomplish everything, and we did just that. Not only did the community have fun, but so did we. The fun and work mixed together made our carnival a worthwhile success.

# DEADLINES...

## WILL THE WORK END?

"Stressful" is not an unusual word to use to describe your senior year. For years, seniors have had many tough responsibilities because almost all of them dealt with deadlines. English term papers, math problems, American government current event papers, science experiments, and that was just the homework. SAT, ACT, scholarship and college applications were also screaming "Finish me!" Here's what two seniors said about what it felt like to be a senior: "It feels great but very stressful." -Cindy Stafford "Stressful." -Sheila Forty

Seniors found ways of dealing with all of the deadlines pulling from different directions. Here is some insight on how some deal with stress: "I escape in a good book or write a story down on the beach." -Anita Sands. "You just learn to live with it if you want to make it." -Rebecca Wingren.

After being in this highschool for three years, one would guess that you'd have the knowledge of how to handle homework and all of the stress associated with it. It's obvious that when you're a senior, you learn even more about homework and test taking strategy. Are you ready for it underclassmen? Don't fret, most seniors survived alright. They ended the year significantly unharmed. Seniors just had to find a sensible way to handle the stress. Yet some seniors took a slightly different approach to deal with stress:

"I beat my head against a wall." -Rob Hagan  
 "I boil little kittens." Misty Franklin

# 92 WEEKENDS

## SENIORS HAD WEEKENDS?

As normal as the word  
weekend sounds to an  
underclassman, the word  
weekend became a new  
word for seniors. They  
became more than a resting  
time. The weekends were  
spent doing homework,  
spending time with friends,  
and doing more homework.  
Here are some examples of  
what seniors had to say  
about weekends:  
"Way too short!" Angie  
Taggart

"Where's my helmet?" Wade  
Shull asks buddy Ty  
Vandergriff.

"Sunday night you are up  
till 3:00 am doing  
homework you should have  
been doing all weekend."  
Marcie Fader  
"We had weekends?"  
Jessica Kullbom  
Seniors did have some  
fun. They watched the  
school sport, caught a  
movie or "chilled" with a  
buddy. The person that  
truly had the most during  
weekends was Cyndi Biagi:  
"Well all my friends and I  
go home and visit with our  
parents, then we all go to  
the library at about 7:30 and  
study until it closes."

# FRAMED!!

## CAUGHT IN THE ACT

"Hey, let's skip class! Oh, hello Mr. Hewitt..."

When Seniors were freshman, they always made an extra effort to get to class on time, and if they were late, they usually had a reasonable excuse. As the years went by, things seemed to loosen up and more and more people saw them as sophomores and juniors, staying after school for detention. As for being seniors, they were repeatedly seen at Saturday school for skipping class. Their excuse was "Senioritis." Why did seniors always try to skip

class? Was it because they wanted to be rebels and try to beat the system? Were they trying to get around the big English vocabulary test for that week, or were they trying to escape all the work they had procrastinated the week before? To seniors, these were all logical excuses, but it always seemed that the authorities saw right through them and gave them consequences for their actions. Poor Mr. Hewitt, will his work ever end?

Right: "I got you," says Mr. Hewitt to Laurel Shepard.

# EYES OFF FRIENDS

## FRIENDS ARE FOREVER

As we walked through those unfamiliar doors of Kayhi as freshman, we grew smiles as we saw some familiar faces in the halls. As four years went by, we met new friends, but we also always seemed to stick together as one. Hall decorations, pep assemblies, repetitious gossiping sessions in the mall parking lot, and other endless hours of time spent together formed a united bond among members of the class of 1992. Over the years we grew together. Through the times of discovering new things, or when we were discovering exactly who we were. Through the times of maturing and learning to make our own decisions, and deciding what we were going to do with the rest of our lives. These times we will hold in our hearts to be some of the best moments of our lives. Remember we did them together, as friends forever.

# HUMOR US

## HUMOROUS ACTS!

Is there any way to escape humor?  
Not for the Junior class. Their  
personalities were filled with  
humorous acts. So we asked them:  
What was your most humorous  
experience?

"During one of my first Freshmen basketball  
games, I shot at the wrong basket." -Ryan  
Klinger

"Seeing Tasha Norris' face as she was  
helplessly held hostage and duck taped."  
Russell Thomas

"Tripping up the stairs in front of Mr.  
Mogen." -Becky Lee

"When I got fully pantsed in front of Turek's  
class." -Henry Webb

Without the humor the Juniors had  
they wouldn't be quite as unique as  
they are.

# GROWTH

## Moving Up

As the class of '93 walked through the halls of Kayhi for the first time, they were simply naive little frosh, still throwing spit balls in class, still calling kids names, but mostly, still IMMATURE. The summers came and they all grew in their own way. They learned how to make their own decisions, looking at choices for the future and communicating with different kinds of people. Time went by and they learned even more about the world. The more they learned about the world, the faster they will grow into successful adults.

# JUNIORS GO WILD

## THE WILD ONES.....

The juniors have shown us the extreme amount of energy that they put into Kayhi. No matter what the situation, the Class of 1993 always got as wild and crazy as ever and made the very best of everything. Whether it was pep assemblies or school sports, they were always there to support their classmates and other Kayhi students with enthusiasm and spirit towards bringing Kayhi to the top, and a better place to be.

# ON OUR WAY UP

## NO LONGER FROSH

Many students are heard complaining that they are "just there". No longer the new Freshman, nor the coveted position of the upperclassmen. We asked most of the students in the Sophomore class what being a Sophomore meant to them.

"Being able to boss the Freshmen around, but still getting respect from them."  
Pat Cruise

"Being the ignored populace of the school."  
Knut Adcock

"One down, three to go."

As you can see, aside from being wild, spirited, unique, and crazy, we are also very creative.

# EXCUSE ME....

## SOPHOMORES EXPLAIN

Repetitious excuses have been used since the beginning of time. At Kayhi, it's a different story. Our excuses get wilder and crazier every year. Here are some of the best:

"I did my home work so well that my mom put it on the refrigerator."

-Corey Steffen

"I don't feel tardy."

-Gabe Thompson

"My imaginary friend took it."

-Jennifer Ohmer

"Aliens ransacked my room." -Joey Nordvedt

As you can see, in consequential situations, the sophomores' minds become very creative. Some even set aside time to think excuses up. Everyday, primordial excuses are used. Try some new ones. Try some of these. They might be of help the next time you're under the bright light.

# HUNGRY?

## LET LOOSE FOR LUNCH...

The bell rang and mobs of people pushed and shoved their way through the door. They found themselves being caught up by the massive wave going down the hall and there was no turning back. You guessed it, lunchtime!! Crowds of people jumped into tiny compact cars and drove screaming to the mall, heads and feet shot rhythmically out the child-proof windows. Others could be found rushing to the best seats in the MSR.

Heaps of food were thrown into a big pile in the center of the table and greedy hands grabbed for the choicest snacks. Still others could be found sitting in humanitites or down in sophomore hall discussing the morning's events or what everyone was doing after school. However, no matter what everyone did during lunchtime it served as a break from hard-core schoolwork for everybody.

# OVERSEAS...

## AWAY FROM HOME

Mindy Hamlin, our exchange student to Japan spent the 91-92 school year in Kanayama, Japan, in the Student Exchange Program. The 15 year old daughter of Pam and Dick Hamlin thoroughly enjoyed her stay. She lived with a Japanese family that she said treated her like their own daughter. She enjoyed living in Japan, but was often lonely. She kept herself busy by taking Japanese language classes, Japanese piano lessons, and

classes in the art of Japanese flower arranging. She wrote to her friends and family nearly every day. She rode a train to her school located in another town, five days a week, and on the sixth day, while all the other Japanese children went to school, she went to her language class. When asked if she could speak the language well yet, she complained that they all spoke too fast....All in all, she loved the country, the people, and most of the food, however, she couldn't wait to get back to her friends, family, and school!!

# IN GENERAL...

## GETTING IT TOGETHER

Last year, the class of 1994 was quiet, unsure, and unnoticed. Only 1 year later, they were loud, rowdy and multiplying. The sophomore class topped all with 203 enrolled, (the most in K-Hi's history). They got their act together. Sophomores could be spotted painting, drawing, and designing posters for their class, and for their pep assemblies. They yelled,

chanted, and screamed at all the gatherings and basically knew a lot more about what was going on. (Compared to the year before where they were lost when it came time to scream, "KHS is the best".) It became clear that the class of 1994 was on the rise, and they'd stop at nothing to get to the top.

# A FRESH START

## THE BOTTOM LINK

As 8th graders, they thought they had reached the top only to find themselves at the bottom again in a new school, experiencing many changes. For the freshmen of 1992, their year was full of new beginnings and a new and mixed up schedule. Their year was not without it's bad points. Freshmen were often put down, picked on, and harassed. Along with the negative aspects, there were various good points, too. Freshmen have brand new opportunities and exciting hope for the future. The track which they will follow throughout their high school years will outline the race they will lead for the rest of their lives.

# FRESHMEN ARE

## ...PEOPLE TOO!

Though most upperclassmen would disagree, Freshmen are people too. Out of all the classes it seems Freshmen have the most distress. The humiliation of riding the bus, the degradation of going to the wrong classes, and the ultimate fear of all Freshmen everywhere: SENIORS!

Being a Freshman isn't as terrible as it sounds. As time passes, the humiliation, degradation, and fear all fade away and are replaced with strength, courage, and pride.

# GETTING THERE

## The Bus!

There is one main way to get to school when you're not old enough to drive and we all know what it is...the bus! Of course it isn't as bad as it may seem. Riding the bus can be creative and even fun at times. Such activities include throwing paper wads, watching a gruesome fight, and even bothering the bus driver himself, until his hair falls out. This of course isn't the only way to get to school for us Frosh, there's always hitchin' a ride with good 'ole mom!

# IN THE FAMILY

## FRESHMEN

The freshmen were completely different than their older brothers and sisters, unfortunately, many people thought they were the same. An example of this mistaken identity was with teachers. It never failed. Teachers would almost always call them by their older brother's or sister's name and humiliate them in front of their freshmen friends. The seniors may have been older than them, but they will never be more important.

## STAND TALL

As eight-graders they were known as the "cream of the crop." They had all of the authority in junior high. They were at the top, but as they entered high school, they realized people have to start all over again. For some, this time, it was with older brothers and sisters as senior in the same school. Not only were they now the lowest in seniority, they also had to deal with powerful older siblings!

## BEHIND THE SCENES

## GOOD JOB

The people in the main office and the counselor's office are truly amazing! When students come in as freshman, they don't always understand the situations that the office staff is given to deal with. This year, not only have they had to put up with us delinquents, but they have also put together a new schedule that most of the students love.

The counselor's office has also been outstanding. Helping students put together credits, and making goals and career plans. The counselors are also there when someone needs advice and guidance with their problems. These people are fantastic. Twenty years from now, we will look back at the tears past and remember always how wonderful they were.

# DON'T READ THIS

## WHAT'S GOING ON?

What is going on in the library these days? Well you're about to find out. Talking with our librarians, Mrs. Arteaga and Mrs. Huntley, about some of the projects we will see within the next year or two, has proved to be beneficial. Right now in the library we have a system called LasorCat, which allows students and staff to find the books that are available in libraries all over the state. Unfortunately, they're not able to see if the books are checked out without placing a phone call to that particular library.

This leads us to the new system that will be placed in the library next school year. It's an automating computer catalog which will replace the card catalog. This will provide information that is not currently available to us. There is also an interlibrary loan, where libraries in the state can send us books that we might not have. Our library has a larger collection of back issues of magazines than any other library in town, according to Mrs. Arteaga.

Language classes are always fun because they allow people to regress to their childhood days. It was just like learning your ABC's all over again, except in a

different language. French is wonderful for those who enjoy the pleasant sounding romance language. Spanish has a spicy dialect, and Japanese is wonderful for students interested in international business. ## ARTISTS

## FLOURISH

"Artists flock to the Alaskan Frontier to capture her beauty..." Ketchikan High School may not be as poetic, but we have definitely put an emphasis on art. The music department is reputed for their outstanding performances, and student art is often displayed throughout the community. Photo-

graphy is an art form that is becoming quite popular. Every year produces more and more talented artists. Kayhi is beginning to explore the city's traditions and heritage in Native Art classes as well. Perhaps a Kayhi Alumni student will become the next Ansel Adams, Kenny G, or maybe even Claude Monet.

# SOCIAL STUDIES

## THE NEWS

It's important today to keep up with the world around us. Current events are required in every social studies class. Some teachers have devoted entire class periods to current events. Someday what we discuss and debate in these classes will become the history of the future.

## Science

From dissecting dogs and frogs to pondering the topic of evolution, science classes at Kayhi can be very interesting! A variety of classes are offered anywhere from physical science to physics. Most freshmen will take physical science, and they'll learn all about the distillation of wood, the spectrum, and waning crescents. The next year most will continue on to the wonderful world of biology. As juniors, the individual has several options; they can take chemistry or advanced biology. Both classes are filled with memorable times. In chemistry one would talk about gum drops or plum pudding, and in advanced biology the main topic would be Saturday Night Live! And don't forget physics; the class offered to crazed seniors. Whatever area interests you, if any, you're sure to find it within the science department.

## WHY?

As you sat in math class frustrated to no end, practically in tears because you couldn't figure out problem number 33; you would scream for help! Fortunately a member of the Kayhi math department came to the rescue. In the 91-92 school year Kayhi students were privileged to have such an experienced staff. Dick Hamlin has taught at Kayhi for 17 years. While Jackie Miller was the new kid on the block, she certainly proved to be a wonderful addition. Then there's Dick Sanders--National Math Award winner! Math is a very difficult subject that takes a great deal of time and dedication. The math teachers at Kayhi knew what it took for success, we couldn't have made it without them.

## TRUE CARHARTTS

The big fad for the mechanically inclined guys at Kayhi is carhartt jackets! Most guys find that when wearing these jackets they'll do their best work on cars. Every part is adjusted, and all the screws are in the right place!

# JUST DO IT

## WORK IT!!

When you hear the phrase, "Work It", you probably think of NIKE commercials with different sports stars. There is another way to work it other than with your body. The other way is through the mind. Special Education helps teach high schoolers who might need special attention, or have specific needs, the social and academic skills that any person needs to successfully move through the stages of life.

There are also the Health and Physical Education classes.

In Mrs. Cagley's health class a student learns not only how to take care of the body and the mind, but also what you shouldn't do with it. Drug abuse, sex education and nutrition are all things taught in the health classes. Kayhi also has gym, swimming and weight training classes. The physical education classes help tone and shape the body. They will get you in shape and give the rest of us something to look at.

# ESSENTIALS

## The Business Necessities

The information obtained in the business section of our academic curriculum is that of great importance. The skills taught and gained in all of these classes help to further the success of the students that have had the opportunity to learn from them. These classes not only help the students academically, but help them in what they pursue in the future.

# CONTRIBUTIONS

## They Help You Help Youth

Special Services have many programs that help the youth in Ketchikan. One example is The Alaska Youth Ready for Work Grant, the coordinator is Jeff Budd. The purpose of this program is to ensure that Ketchikan High School graduates are truly ready for work; whether they go to college, trade school, or into our community.

Larry Roush is a vocational counselor for Alaska Employment Service. He helps people make choices concerning the career. Larry along with all these other helpers on this page come together to make Ketchikan a nicer community to be a part of.

# FUTURE

## AVIATION

The area around Ketchikan and Southeast Alaska is one that relies heavily on aviation for much of its transportation needs. It is only fitting that Kayhi has a class that educates future aviators who will hopefully go on to become Alaskan pilots, commercial airline captains, armed force pilots or even astronauts.

The course was designed to help the student pass the FAA Private Pilots written exam, which combined with about 40 hours of flight time and a check ride with the FAA gives the student his/her private pilot license. The students learn everything from the basic

parts of an airplane to calculating the ground roll distance on dry grass at a density altitude of 6,000 ft.

This course is hard and challenging, but the joy of flying and the goal of becoming a pilot makes all the work worth while, but of course none of the achievement of this course could be possible without the expertise and experience of the fearless teacher Dick "storyteller" Hamlin.

# PLANNING

## MARITIME

Students choosing Maritime have a great start for their future, whether they are planning to have a career dealing in the marine field or just for dealing with the ketchikan environment. Such skills as navigation, sea menship, net mending and assembling, marine safety, and different type of fishing skills are taught throughout the year.

# INVESTIGATORS

## INTERNAL AFFAIRS

How many times did a yearbook staffer tell you the yearbook theme was "TOP SECRET"? Well, we weren't lying! This year Room #313 became Kayhi's Center of Investigation. We recorded your conversations and photographed your lives. The Internal Affairs became a little hectic at deadlines. Frustration is twenty people needing to

use a computer when only two are available, and the same twenty people needing to use an enlarger, with a total of four in our darkroom. Let me assure you that the stress level in yearbook was extremely scary, and most of our free time became crammed hours to finish this yearbook for all of you, so we hope you enjoy it for many years.

# TOP NOTES

## MAGNIFIQUE!

Rome wasn't built in a day and neither was this band. It took a great effort from both Mr. Bjur and the musicians to make the band as good as it turned out to be. Everyone had to be willing to give 110% both in and out of class. The band had its ups and down, but there was more ups than downs.

The band was able to turn out many great performances, even though there were many new members. The saying, "All work and no play" didn't apply to this bunch. To relieve stress, balds and blondes had to bear the burden of the jokes. Mr. Bjur's comical impressions of different people helped to liven things up.

## TOP NOTCH

This year's Concert Choir, with over 50 people, turned in some great performances, including the much anticipated Lightweight Concert and the Pre- Festival Concert. The choir got off to a great start in the fall, singing some challenging, and beautiful songs. Since then they have only gotten better.

In addition, Ketchikan High had the honor of sending 20 people to the southeast Honor Choir in Wrangell. We also had Kayhi singers in the Alaska All- State Choir.

The work began early for this group, causing quite a lot of tension, but the choir has improved greatly and the work they've done since the beginning of the year has paid off. If choir keeps improving like this, next year's choir should be something to listen to.

# SING OUT LOUD !

## MAKE A WONDERFUL NOISE

The Kayhi Treble Choir is a large group of girls instructed by Mr. Gerald Hughes on the proper ways to sing. In this class the students learn the necessities of warming up the body and voice, preparing both for singing. Students also learn proper breathing and vocal techniques to help enhance their voice quality, as a group or soloist.

Mr. Hughes is very willing to work with those people who want to learn. What the students receive from this class depends on their attitude towards it. This class should be looked upon as a preparation for future singing experiences and possible insight to a singing career.

JAZZIN' IT UP

Jazz choir is a group of individuals who meet every day after school for eighth hour in the Choir room. These students are not only dedicated to their music, but to themselves. Here are a few of the members' feelings towards Jazz Choir :

" Jazz Choir is fun because it's a group of people, who have a common interest, coming together to pursue their dreams. " - Shay LeBeau

"Jazz is great ! " - Andrew Spokely

" Jazz is a great time. It starts out as a group of friends getting together and just having fun and then grows into something much more." - Jake Guyman.

# THE FINAL ACT

## PART ONE

The Drama team and Thespian club have made much progress within the last two years. The Drama team was formed last year, and in this short period of time they have shown fantastic results. Of course they all had a lot of fun, creaming the other Drama teams throughout southeast.

Competing on the Drama team has been quite an experience. Most enjoyed the hard work. Selecting and preparing pieces, and rising early, to catch that dreaded morning flight.

For some, traveling turned into a great ordeal if a person happened to have a fear of flying in bad weather, or get sea sick. There were always those loveable individuals who made it a terror and a trip to remember.

After they arrived to their destination, it was straight to school. This was where they dumped their luggage and ran around until 3:00. The next two days included running around from event to event, trying not to feel too stressed out, often switching characters, and praying that they did well. Being under this stress, individuals often regressed to childhood days by coloring in Sesame Street coloring books.

After two days of running around, grabbing a snack, going out to dinner, and to school dances, it was finally Saturday night, and the competition was over. It was time for command performances and placement announcements. At the command performances, a person would see the performances that the judges liked. Sometimes the command performance would show a performer what he or she could improve on.

After commands, the team usually retired to the coach's hotel room to go over the judges sheets, then usually go out for dinner, and the next day, go home.

The International Thespian Society is a world renowned actors' guild. Thespian President is Travis Wright, advisor Linda Miles, Vice President Steve McKelvy, advised by Carrie Billsborow, and the Secretary Brandi Allen, advised by David Weberg.

The scribe is Jennifer Thompson. Thespian Society has come quite far over the last two years. They've had more organized meetings, and started selling candy grams to help pay for the trip to Ashland for the Shakespearean Festival, in which some members participate.

Both the Drama Team, and the Thespian Club have come very far these last two years. All of this thanks to our wonderful coach and advisor Mrs. Clare Patton.

# THE SPIRIT

## KAYHI PEPSTERS

This year's Pep Club was a group to be proud of. Led by their officers, Scott Dossett, Brooks Crockett, and Gretchen Klein, they yelled, cheered, and screamed. Not only did they show up at all the Varsity games, they appeared at JV and Freshmen games as well. While the cheerleaders cheered in their traditional uniforms, Pep Club members wore uniforms of their own, consisting mostly of painted jeans, funky hats, and basically anything maroon, white, or gold. Side by side, they yelled supporting our basketball players. Their favorite cheer was "Give 'em the Fin!" Another they especially liked was "Kawasaki", because they had the opportunity to knock fellow members down. And of course, they had to end every game with a song, so they took a deep breath before singing "Home, Home on the Range". Our players really appreciated this wild, crazy, and outrageous group and hope that our Pep Club will continue to grow in size as well as in spirit!

## PEP BAND

In another spirited year, Kayhi Pep band began at an incredible high. Many people say that the basketball games wouldn't be the same without the upbeat tunes from our Pep Band. They usually only had a few minutes to play, but generally they managed to get the crowd rowdied up, and make the cheerleaders dance. They were really a talented group, livening up the atmosphere before the games. Our Pep Band is greatly appreciated for their hard work and dedication to make their music sound great.

# SBA TAKES ACTION

## Working Together

The Student Body Association has always worked hard to make Kayhi a better place to go to school. This year the SBA has been very busy with all sorts of things. This year they continued their work with the Sponsor-A-Child Committee and added a Homeless Committee; both were under the direction of Julie Berkey who did a fabulous job coordinating events and taking care of problems that came up throughout the year.

SBA also dealt with many student problems this year. With the help of Tor Jorgenson, SBA worked with administration to cut the bars from the front of the MSR to create more parking space. They also worked hard with the administration to work out a class schedule that the student body would be happy with too. Students asked for a recycling project to begin again and SBA re-implemented their old program under the direction of Karen Lansangan. It continued successfully throughout the year.

## HELPING OUT

Need a helping hand?? That's what Natural Helpers are here for. They are a group of Ketchikan and Revela High School Students, that have dedicated some of their own time to receive training in order to help students when they need someone there and also to learn about themselves. Natural Helpers consist of students however there are members of the community and teachers in this school that help in guiding these helping students. Natural Helpers guide new and foreign students, also anyone who needs a friend through rough times. This organization is a great asset to Kayhi.

## KIDS AGAIN

Quite possibly one of the most useful and important classes to take at Kayhi is applied child psychology. This class not only discusses the way children learn and think, but the students actually get "hands on learning" with the children from many of the day care services around Ketchikan. The students do projects with the children, using their own teaching abilities learned in class to understand them and learn about their social and mental development. It is a great feeling knowing that you are looked up to and appreciated by all these children.

## HEY BABE...

This was John Wipfli's last year at Kayhi, and we certainly won't be the same without this Colossus of Chronicles. His room, which looks like an archives from the ancient library in Alexandria, has earned the nickname 'The Den of Antiquity.'

John Wipfli has successfully prepared Kayhi students to be informed citizens for the last 28 years. Although he has a reputation for being a voracious lecturer and an extremely challenging teacher, which at times has dampened the enthusiasm of students while they were taking him, he has also earned a reputation as perhaps the best college prep teacher in the school. It is not uncommon for Mr. Wipfli's exstudents to credit him with their success in college history courses.

We asked a few of Mr. Wipfli's students, new and old, to tell us something that they remembered about their classes with the 'Titan of Historic Times.'

## I'M HISTORY!

"He's the dean of knowledge."-- Dan Ortiz Class of '76.

"I remember when we walked into his classroom and deposited the year's supply of Time magazines he made us read on the floor in front of him"--Mary Jo Turek Class of '66.

"All I remember is Mr. Wipfli always yelling, 'Jackson! To the office!'" -Phil Jackson Class of '68.

"I had him in the 70's when life was groovy. He was the Humanities' demigod."-Peter Bolling Class of '77.

"No matter how many pages I wrote, he would always tell me to elaborate! Elaborate!"- Jack Boulton Class of '92.

# ROCKS

## BRAIN POWER

That's what the game is all about!

The Academic Decathlon team is composed of students from all classes who partake in test at every meet. Some of the many subjects concern science, fine arts, math, social studies and so on. Why do students do this, you ask? Simply because they find this fun and challenging like any other sport, except our fingers and minds do the exercise.

This year the team went to Juneau for the first meet and took second, but not to worry, our Kings will pull through!

# HONOR SOCIETY

## SCHOLARS

This year, Kayhi's Honors Society decided to tackle the known, unknown and everything in between. Their contributions to Kayhi and our community are based on their desire for a better place to live.

Graded on leadership, their participation in activities and their scholarship abilities, they are invited to join Ketchikan's branch of National Honors Society. This selected group not only strives for a better community, but for a better life for themselves.

# DEBATE THIS!

## LET'S TALK

Sports around Kayhi seem to have taken their full turn, so it seems obvious to focus on some of the academic activities found on campus. One of these activities is Debate. The Ketchikan Debate Team has members ranging from the bottom - of - the - pile Freshmen to the high and mighty Seniors.

Outwitting and outsmarting debate teams from all over Southeast Alaska is something that the Kayhi Debate Team prides themselves upon. The Kayhi Debate Team has done an excellent job under the tutelage of Jeanne Sande, placing three of its teams out of a possible top five at a tournament in Sitka; also placing many of its speakers in the top ten.

With its newcoming Freshmen and its soon to be graduating Seniors, the Ketchikan Debate Team has begun to reap all the rewards that friendship and teamwork have to offer.

## PHOTO

Art takes talent, and talent is what is displayed in Kayhi's Photo classes. These students have begun or already completed their Photo One class and are ready to move to the higher, more involved photo classes.

Photo classes keep themselves busy not only by keeping up with weekly assignments, but also help in the pictures needed for the Yearbook class.

Photo students are a great asset to the school and a wonderful contribution to the world of art.

## ACTIVE DUTY

## UNITY

As each member of the team toils through ten mile practices, through the sweat, tears, and swarms of mosquitos, the question arised ...was this really worth it? Was it worth the nervousness, and fear of an upcoming race? Was it worth the physical and mental strain? Was it really worth all the extra effort? Every member of the team, and every person who has ever been in x-country, has answered yes to these questions in their minds.

It may not have happened right away, but it happened when they became a part of the "team", and developed friendships that would last throughout high school. It happened when after a long practice, they took a chilling swim in Ward Lake. When they saw each other in the middle of the night, traveling to P.O.W. for a race the very next day. When they felt safe among certain members of the team, protected against those "hooligans" in Wrangell. When they'd stay up until all hours of the night

watching "The First Power" in the Baptist church, or pillow fighting until they were too exhausted to stand. Or even when they just sat up and talked until the wee hours. They had fun playing spoons, running around the ferry deck in ninety mph hour winds, dashing to the ice cream store for Ben and Jerry's on a fifteen minute ferry stop-over and singing U2 at the top of their lungs squished in a mini van with all fourteen members of the team crusin' down the Juneau highway. Sure, running seven to ten

Miles a day is tough, but the benefits absolutely outweigh the obstacles! Then join the x-country team. It's an experience you'll never forget!

# X-COUNTRY

## DEVOTION

Gretchen Klein has had a very successful x-country career. Not only has she won state titles, but she has gone down to the lower 48 to compete against the best high school girls in the country. This year, Gretchen plans to attend many competitions. On December 7, 1991, she will travel to Fresno, CA. where she will race for 8th place or better in the Kinney's X-Country championships. If she places 8th or better she will go to San Diego the

following week for nationals. Gretchen and her coach, Dick Clevenger, have been working extremely hard to prepare for these races. For the past five months Gretchen has been training twice a day; once at 4:30 am and again after school. Her workouts average about twenty miles a day! On December 26, 1991, she'll travel to Hawaii where she'll run for the U.S. Team. She was chosen to represent the U.S. in a long distance relay against twenty countries. In February, she is planning to go to Boston for the jr. World X-Country Qualities. If she places in the top six she will move on to compete in the Jr. World X-Country Championships in Tennessee, in mid-March. Gretchen is a very disciplined individual, and her achievements have provided her with many wonderful opportunities. She plans to run strong and hopes to make the 1996 Summer Olympics team. With her dedication and drive we can see her achieving her goals!

# KINGS RULE

## SWIMMING

Swimming, swimming, and more swimming, that was what most of the swimmers thought about and did twice a day for three and a half months straight. Screaming voices were the sounds heard at the pool when the hard working swimming and diving team swam and dove their way to victory. The 1991 school year was very

rewarding for the Kayhi Kings. Every meet there were great improvements from both swimmers and divers. The boys, having a strong team, won all of their meets, yet the girls who were strong but small, were very competitive. The success of the Kayhi swimming and diving team was no secret.

# SPLASHING TO

## SOUTHEAST

Aiming for the top and psyching up for Southeast, the Kayhi boys showed their spirit by wearing mohawks and flat-tops, while the girls wore dreadlocks in their hair. The other Region V teams were astounded by the Kings' new look. Not only were they shocked by their appearance, but also by their performance. The Kings swam through the water like torpedos. Their vicious speed brought the boys team to their fourth consecutive title, and the girls took a successful third.

Unfortunately, this success did not happen overnight. The swimmers worked diligently from mid August until Regionals. Not only did they prepare physically by swimming, lifting weights and doing stretch cords hour after hour, but they also trained mentally by attending karate classes. The divers dove intensely from seven until nine every night, suffering from sore limbs and red backs. The girls sacrificed their smooth legs by growing out their

hair for an entire season. When the time came to shave, they rejoiced. The boys also shaved their legs and arms, but they weren't quite as thrilled! The preparations for Southeast were responsible for bringing nine swimmers and three divers to the state championships in Anchorage. Hopefully the success of the swimming and diving team will continue for many years to come.

## ONLY SIX!!

The C-squad had a tough time pulling through to win this year with only six players.

The team all agreed that the highlight of the season was when they beat Thorne 61 to 10!

This year was each players first year playing with Kayhi. Coach Miller says that they are all JV material, and promising athletes.

Kathy Miller, new to Kayhi, comes from Grand Haven, Michigan. She plans to return home in the summer.

The team had a fun season, and each player plans to return to play next year.

## PLAYING HARD BALL!

This year we started with an intense year. We came out with strong boards and a tough defense. More than half of our team consisted of Freshmen. Throughout the year we had some tough competition, but we held ground, and kept our cool. We even had a few games without our original coach Fitzgerald,

who was home with his new baby boy. We also touched base with our girls varsity team, quite a few times. We gained some experience coming up and playing with them in games. Individually we all have good things to look forward to in the future. But as a team we have all good things to say about us now!

# THE SURVIVORS

## CHANGES

The 1991-92 basketball season began. Players were chosen by their experience, skill and potential. Each were picked to fit a certain place during each second of the game. Players were anxious for practice, drills, games and traveling, but as time rolled on, problems arised. The Freshman and JV team was broken apart and team members rapidly decreased. Naturally, this placed a burden upon the coaches and the remaining players. Everything had to be changed. Some players moved from Freshman to JV team and others moved from JV to Varsity. There were even some switches from Freshman to Varsity. Players had to get used to other ways to play, creating much difficulty. The Survivors were the ones who followed through to the very end of the season. Win or lose, they worked together as a team, and pushed towards their goals, making them a closer unit as team members and friends. It was definately a successful year of experimentation, hard work and change for the Freshman and JV basketball teams. They are the true SURVIVORS!

*Gabe Bolshakoff*

Throughout the year we had some difficult times coping with team member eligibility and movement among varsity and J.V. players. There had been a lot of switching of players, but for all of the hard work and effort in practices, we definitely had something to be proud of. We just started playing high school ball, but we now know our limits, and with working hard there is no limit. There is still more to come for us.

# HARD WORK

## PLAY BALL

The 91-92 girls basketball season was a bumpy ride for the team. The girls not only faced tough out-of-state competition from Washington, but also played against Southeast rival and state-ranked

Juneau-Douglas Crimson Bears. The hard work and persistence of the players at practices and games drew the team together.

The girls team, with confidence and faith in each other, had a successful year winning twelve games and playing outstanding ball in all twenty-two competitions. Although the squad will be sad to see five seniors leave this year, Kayhi expects to see another rewarding season in 93!!

## TURNOVERS!

1991-1992 wasn't what you could call the best season Kayhi. That doesn't speak of their wins and losses; they seemed to have a little bit of trouble holding onto members of the team. Their trip to Canada wasn't the most memorable. Four members of the team were dismissed, when they admitted to stealing. From the start of their return home, they had a lot of shifting of team members from the J.V. level to the varsity team. Which didn't leave much to desire. They had a difficult time working with a new team each week. Not giving them much when it came to game time. Another problem they had to deal with, was almost losing David Walker. Their M.V.P and high scorer for the team. Although David resumed on the team, they still struggled mentally to keep up with the game. All in all they managed to pull through the rest of the season. Continuous problems throughout the year wasn't helpful. But they didn't give up. Day in, day out, they worked [hard] hoping there was a little bit of luck left for them. So, no matter how many times they fell. They knew they'd give it their best. They just got right back up.

## K-HIGHLITES

There is one person that we would like to say thanks to for all of her time, help and friendship; that is Abby Kosmos. Abby has been there for us through everything. Kindness and understanding are sometimes hard to find in a coach; we found that in her. Everything she has done is greatly appreciated. Thanks Abby, we love you!

## Hot, Hot, Hot

"Five, six, seven, eight. Straighten your arms! What's this count? Where do I go? Uggh, point your toes!" Ever hear this before? Nowhere else but drill team.

Yes, your K-Highlights are here to entertain you at various basketball games and events. They smile, they sparkle and they shine. Much devotion is expected of each drill teamer, including time spent at 5:00 A.M practices, Saturday and weekly practices fundraisers and get together.

The 1991-92 drill team season was an experimental year for everyone. There were only 9 returning members with the rest being rookies. At practices.. there was definately chaos, but also many laughs and fun times. As the year went by, they grew as friends and in the end, realized that working as a team is always the best answer. It was definately an EXCELLENT year.

# CHEERING THRU '92

## CHAMPIONS

The '91-92 Junior Varsity cheerleading squad consisted of only one returning JV cheerleader, Melinda Buel, along with: Mila Jarvi, Pepper Metoyer, Megan Hooker, Shannon Mahn, and Angie Spromberg. Their hard work certainly paid off, as was shown when they sent a videotape of their cheers to the International Open Cheerleading Competition and was impressively placed in the top 10% of all the JV squads in the nation. On December 26th, they packed their bags and flew to Nashville, Tennessee, where they competed with some of the best Junior Varsity cheerleading squads in the nation. Although they didn't make it to the finals competition, the experience they gained was invaluable and a memory worth remembering.

(Above) "LET'S GO" cheers the Varsity cheerleaders as they perform at a Pep Assembly.

Considering K-Hi only saw 7 weekends of home basketball games, the cheerleaders managed to keep very busy! The season started with the swimming meets where the cheerleaders fearlessly beared the horrible heat of the pool, and cheered our swimmers to victory!

Basketball started soon afterwards. Although the players didn't always win their games, they won their way into the cheerleader's hearts, and the girls never stopped supporting the teams. The whole year was spent preparing for the big finale.....Region V Southeast at Sitka. This year, the Varsity squad had only two returning Varsity cheerleaders: Julie Berkey and Jill Glaspey. They were accompanied by former JV cheerleaders, Tracey Sund, Karen Lansangan, and Martha Anslinger. The team was topped off by a new member to cheerleading altogether, Emily Cooke. Their hard work, and smiling faces brought real spirit to the year's activities.

# HOLIDAY BALL

## CCCC

Clarke Cochrane Cristmanns Classic was so much fun this year. We had three visiting boys teams; Metlakatla, Palmer, and St. Helens, and three visiting girls teams; Klawock, Metlakatla, and Wrangell. It was exciting for our teams to have such challenging competition. The kayhi girls placed first in the tournament, while the boys placed third. During the CCCC we heard good things from the awesome Pep Band. With all of the returning alumni the band was complete, and they cranked out the tunes!

The K-Highlights were superior as always, and the Cheerleaders were definite crowd pleasers. Just before the Homecoming game they announced the king & queen. "The 1991 Homecoming queen and king are Sonia Ford and Joel Kinunen," announced Mr. Pennington. It was definitely a weekend to remember!

## S.E. BASKETBALL

Kayhi arrived in Sitka with the attitude that they could win the S.E. Basketball, Cheering, Drill Team, Pep Band, and Cheerleading competitions as well as eat mass quantities of that oooh so good concession stand food! Watching our basketball team play was the experience of a lifetime. All of the games were very close and showed that our players had the determination to win, but unfortunately they were defeated. Our drill team gave

a dazzling performance and recieved a very high "Excellent" rating. They are quite the dance-o-rama group. next year will be their year. Our cheerleaders showed their spirit by working hard and received a "Superior" rating. This makes it four years in a row! The Pep Club and the Cheerleaders worked in harmony to show how much spirit Kayhi really has. Overall, it was a great time for all of Kayhi.

# KINGS CONTROL

## DRIVE

When the volleyball season began, coaches Kathy Miller and Lou Ann Boyer prepared the J.V. and C teams for a new year. Along with suffering through drills, the two teams continually conditioned for their games by running, doing sit-ups, push-ups, and other laborous exercises. Getting in shape, however, never stopped these teams from accepting their challenges and achieving their goals. With many returning members and incoming freshman, the two teams have done exceptionally well. There is no question these athletes show lots of promise for future years.

# SPIKERS ON

## VICTORY

They say that good things come to those who wait. Well, the varsity volleyball team proved that they had waited long enough, and it was time for a victory. The season started off good right from the very beginning. The team was stacked with nine hard working athletes and a wonderful coach. They scored their first win just two weeks into the season, and worked extremely hard to achieve several more. Not only were they successful, but they had lots of fun working together. This season was definitely an improvement over last year; the spikers are now a winning team. All of the players were very confident about taking S.E. and going to Anchorage to compete in the state tournament. This has been a goal for many years and it seems that the 91-92 varsity team will achieve their goal this year!

## VARSITY

There is one person that deserves many thanks for her efforts, and that's varsity coach Amber Thomas. The nine of us have been extremely privileged to have had the opportunity to work with such a wonderful individual. All of your hard work has been appreciated! Thanks Amber, you're the best!

# WRESTLE...

## EFFORT....

Most people say you can't teach an old dog new tricks. This was far from the truth when it came to the Junior and Senior wrestlers on the team. Their age didn't slow them down. They persevered through all the wrestling hardships and kept improving just like the underclassmen.

Being a wrestler required both speed and strength. They were up at the crack of dawn, had strict diets, and the sweaty aroma of the gym after practice was just one sign of how hard they worked.

No one had a "clue" of how much perseverance it took to be a wrestler. It's a good thing it didn't stop these guys after all their years of work.

# UNDER CLASSMEN

## WRESTLERS DOMINATE

Many of the Freshmen and Sophomore wrestlers this year have defeated the upperclassmen and claimed Varsity spots. The others have led our JV team to many victories. For several of our wrestlers this is their first year to participate in the sport. They have learned a great deal from returning team members and their coaches. Some Sophomores and even

Freshmen hold top spots in Southeast.

This year we have broken the stereotype of wrestling being for guys only. A Sophomore girl was brave enough to join the team. She's really doing great, by pinning a guy at the very first meet. All of our underclassmen our doing a great job and we should be proud of them.

# ACCELERATED ....

Shelia Forty took second in the discus, and sixth in the shot put for Alaska in her Junior year. She also took second in Oregon for

the shot put.

Shelia trains hard, and throws when she can. "It takes determination and discipline to be the best."

Gretchen Klein is a year-round athlete. She not only placed ninth at Nationals, but also qualified as an alternate for

the world championships in cross country.

Her discipline and hard work came before any of her triumphs.

## ATHLETES

What does it take to be an accelerated athlete? Hard work and discipline are right on top.

Shelia Forty, Gretchen Klein, Brad Hagan, Matt Hagan, and Rob Hagan are all on our list not only for their excellent skills in their sport, but for the other extra curricular activities they are active in. Most of the athletes hold a part-time job, and still have time to devote to school.

All five put a great deal of effort into their sport, and were rewarded for it. Being the best at what they do takes a lot of time, but Kayhi's Accelerated Athletes are the best, and manage to do just about everything.

Matt Hagan puts a lot of hard work and dedication into his swimming.

Matt says that it also takes a lot of training to be the best. He swims 13 hours a week, and also lifts weights.

Matt has made it to Nationals, and even took first at State in 1989.

Brad Hagan holds state records for his freestyle swimming in the boys 200 meter, and in the 1,500 meter. He has been swimming for 10 years.

His workouts are high intensity, they include swimming for approximately 5,000 to 6,000 yards every practice.

Rob Hagan held many championships in Alaska including the 100 yard freestyle 3 years in a row.

He spent most of his spare time swimming, but still found time to go on dates.

Rob believes that it takes a lot of practice and a good coach to be the best.

Bloopers are silly mistakes which always make someone giggle at one time or another. # KAYHI

## ...SAYS HELLO

This year Kayhi has become a pool for international students. Misha Musin, sponsored by Rotary, is our school's first exchange student from the Soviet Union. "We have more freedoms in the U.S.S.R., and it's easier to skip," he says. "People here tend to think more about themselves while Russians tend to think more about their friends." Kayhi's Jeannie Seludo of the Philippines has a different view, "I feel like here people care more about the homeless and especially the children."

Moving from one culture to another can present problems. William and Matt Cook moved here recently from England. We asked William to share an U.S. experience. "In England pants are underwear, not trousers, so when someone says, 'I like your pants,' I tend to blush."

Students in English as a second language had several things to say about Kayhi. Mai Linh Nouyen from Vietnam, admits that English was a hard language to learn, so she especially is grateful to her teacher Ann Carlson. "Kayhi cares a lot about students," Jeannie Seludo feels, "they try to help us understand. In the Philippines I couldn't understand a lot. Here they help me to understand, I'm learning now."

## NATIVE COMMUNITY

In Ketchikan the native cultures of Tlingit, Haida, and Tsimpsian can be observed every where we turn. Many people recognize Ketchikan as a prominent city of native culture because of out totem poles, wood carvings, dancing, and heritage.

A one year potlatch was held on October 5th & 6th, 1991 in honor of tribal member Martha Shields. She was a well respected elder in the

community of Saxman. Many Southeast Alaskan natives attended the potlatch to honor her with ceremonial dancing and other festivities.

# HARD AT WORK

## KAYHI MAKES A DIFFERENCE

Mr. Crockett and Mrs. Sande, the American Government teachers, assigned seniors to have ten hours of community service for the second quarter project. Many seniors were ready to serve the community hoping to complete this assignment. Seniors volunteered their time for many charitable organizations such as; March of Dimes, Alaskans for Drug Free Youth, Hospice of Ketchikan, Ketchikan Homeless committee, and many, many more! For many years kayhi has participated in a local food drive to benefit the homeless of Ketchikan. This year kayhi collected approx. 2,200 pounds of food. Mr. Crockett's first hour American Government class collected the most food.

This fine group of seniors gathered approx. 550 pounds! The SBA currently sponsors two children from third world countries; Nisreen age 9, from Bethlehem, and Al-Kasey age 5, from the Phillipines. The SBA has made an obligation to sponsor these children till they reach the age of 18. InterAct is another community service group that was started this year at kayhi. InterAct is made up of about 20 members, and they are sponsored by the Rotary. Every month they have a trash-pickup throughout Ketchikan. These are just a few of the ways kids at kayhi are getting involved and making a difference throughout our community and the world.

## I LIKE THE NIGHT LIFE BABY !

"Yes! It's friday night which means 2 whole days to do what ever our hearts desire. In other words, no school! Everyone has there own ideas of haing fun and hanging out. We all have favorite places to go and different activities to do, although Ketchikan doesn't seem to offer much us kids try and make do.

I decided to ask some students what their favorite activities were and here are some of my favorite responses:

"Crashing into ditches with Brian Kelly..."-Rachel Cannon

"Being with my wonderful honey, Patrick!"-Diane Blair

"Going to Harriat Hunt and riding snowmobiles."-Denise Kacenas

"Repelling, even though I've only done it once! I loved it!"-Melissa Dwyer

From what I've learned here, these kids have found some pretty interesting things to do!

## MIXING!!

Kayhi was not a school which could be categorized by classes. All the students worked together to have fun during school hours and out of school hours. Coming together was something which was not hard to find. One of the greatest parts of being in high school is being able to gain new friends from the four classes which are in the school. The mixture of all the classes allowed a school to come together and make a school with spirit and life. That was no secret!!

**Jack William Falzarano III**  
1976-1992

Jack was a very special person: a born leader. He was a good son and brother. We will miss him dearly. There will always be a place in our hearts that belongs to Jack. We are very proud of Jack and all of his accomplishments, and we will always remember him.

We love you Jack.

Later.

Dad, Mom, Alan, and Gabe

"Don't be afraid of my love, I'll be watching you from above, and I'd give all the world tonight to be with you. Because I'm on your side and I still care, I may have died, but I've gone nowhere. Just think of me, and I'll be there."

**Michael Nygard**  
1974 - 1991

**Joshua Smith**  
1974-1991

So short a life, yet so long a memory. To those who loved Josh the most, he was family-oriented and a very sensitive and caring person. His two favorite T.V. shows reflected who Josh really was; those two shows were MacGyver and The Waltons. Josh also, not according to popular demand, knew every word to the Peter, Paul and Mary tape. To those that loved Josh, he will remain forever in our hearts and memories.

# Guess Who?

Every parent says, "It seems like only yesterday..." when they realize their children have become young adults. No parent wants to accept the fact that their children are no longer babies. So for our parent's sake we have left room for some reminiscing and below are pictured some of Kayhi's Seniors...yesterday.

Pictured below are, in no particular order: Diane Blair, Vanessa McElroy, Nichelle Corley, Chris Breithaupt, Niki Rhyner, Syd Thompson, Dustin Adams, Zach LaPerriere, Kalina Kessler, Joe Hasibar, Ron Race,

Jill Glaspey, Angie Taggart, Brenda Gibson, Rhonda Erickson, Sonia Ford, Marcie Fader, Melissa Dwyer, Jack Boulton, Brian Kelley, The Hagans, Brandi Allen, Laurel Sheppard, Colleen Dougherty, Lee Ann Allen, Sarah Collins, Cari Lindemann, And Tasha Norris.

We would also like to take this opportunity to return your thanks for all the years you put up with us. The "terrible two's," and through the teen years; our first teeth and first loves and first cars. So here's to you for supporting us through all this, because none of us could have made it this far without you! Now we can BOTH enjoy some new-found freedom and independence.

Congratulations Ron.  
Remember -- Life is  
what you make it!  
Be all that you can be!  
Love,  
Mom and Dad

What a "Stinker!"  
Congratulations - we love you.  
Mom and Dad

My daughter Sydney who  
has made me very happy and  
very proud since the day  
she was born!

Love, Mom

"Who says you can't beat  
the heat without air  
conditioning!"  
Congratulations Honey, we're  
very, very proud of you!

Love,  
Mom and Dad

Leaving doors open allows  
opportunities to walk in,  
also inopportunities.  
Wishing you the wisdom to  
know which doors to leave open.

Good on you.

Dear Sonia,  
We wish you much happiness  
and success in whatever you  
endeavor to do with your life.  
We love you!

Mom & Dad

Congratulations. The years have gone quickly. We have had wonderful times. We pray you will follow your dreams with the Lord in your Heart.

We knew you would make it!  
Congrats to you Munch-kin.  
We love you whole lotsa  
bunches, just like back  
then. You'll always be our  
Munch-kin.

Congratulations, Rhonda, we  
knew you could do it, and may  
all your dreams come true.

We love you so much, Jack!

Congratulations Diane,  
We're proud of you.  
Love,  
Mom, Dad, Roy, & Linda

At times like this we really  
wondered about you, but you  
have really made up proud!  
Congratulations, Chris!

Missy,  
We are happy to see that our little girl  
grew up to be such a beautiful person,  
both inside and out. We wish you  
the best in everything you do.  
Love, Mom and Dad

Congratulations, all three of you!  
You all have made us very happy  
and proud.  
Love, Mom and Dad

Dear Joe, you were so cute!  
What happened?! (Just kidding)  
Enjoyed your company -  
See you for dinner once in a  
while.

Love,  
Mom and Dad

"No, no" = go for the stereo!  
Courage, strength, creativity  
are a part of you. Hang on to  
your passion for the arts.  
Congratulations --

Love, Mom

Cari - Thanks for always  
being there for me. I couldn't  
have asked for a better friend!

Love Always, Sarah

Brian,

Finally, four years of hard  
work pays off. You're a  
great guy, we wish you the  
best and we're proud of you!

Love,  
Mom, Dad, Sis, Kasey, & Chris

Our sweet little girl grew up to be a very special young lady. We're so very proud of you, Angie, and wish you all the best that life has to offer. We're always here for you, and we'll love you forever.

Love,  
Mom, Dad, & Trevor

Mature young lady,  
Active and fun,  
Responsible for her  
decisions,  
Caring of others,  
Intelligent and bright,  
Everything a daughter could be!

Love, Mom and Bill

Little Lani Lousie... Now you're  
all grown up! I love you!

Mom

I looked at you today  
and saw my beautiful  
daughter  
no longer a baby  
but a beautiful person  
in full control of her life.

Congratulations Tasha!  
We love you!  
Mom and Dad

Jill, you have brightened our  
life and made us proud. We  
love you very much!  
Mom and Dad

## IS SUCH SWEET SORROW

Looking back on the '91-92 school year at Kayhi, a flood of memories came rushing back. Memories of new schedules, new friends, and, of course, the same old homework. But all of these combined create a truly unique year. For some, it was a time to prepare to move on to college, and for others it was a time to settle in at Kayhi, for the first time, but for all it was a time to cherish and remember. In only 9 months, there were enough memories make to last a lifetime. After surviving the beginning of a whole new year, it is already time to wave it goodbye, and begin looking forward to the next year. Complete with a new set of freshman and the beginning of a whole

new high school. But no matter what changes are made during the '92-93 school year the "91-92 year will still hold many memories. Even when tragic events and painful losses there were always happy moments throughout the year. The annual frenzy of Senior Carnival, the Scavenger Hunt, and the SE Basketball trip are just a few of the unforgettable memories that set this year apart from all the others. Yet, like any other year, it must be brought to a close. So we say our last farewell to an unforgettable year.

**CASE CLOSED!**

Right: Looking off into the sea, the two try to imagine what the future will hold.

Above: Walking down the path of life, Angie Taggart moves on.

Above: Free at last! Those crazy kids just want to leave.

Right: Taking off! Tonya Stensland, Katrin Pawlick, Melissa Johnson, Arvin Ner, and Kray Cambell, just want out of here.

Above: See ya! Tillie Pchay gives us the goodbye look.

*My work here is done. I hope you enjoyed this yearbook and all the '91-92 yearbook staff put into it's content. Keep looking towards the future.*

*I'll miss you!*
